

What Are Existing Users Saying About Our Service?

I receive so many subscriptions- I don't have time to put eyes on all of them. This is an excellent service.

There is an anxiety associated with seeing the [journals] pile up on your desk. When I saw this service was available, I was so relieved. I used audio to study for the bar exam, now I use it as a convenient way to stay informed. You can't put a price on the importance of staying current.

[This service] offers a convenient way to absorb the articles I might not otherwise have time to read, allowing me to use my driving time more efficiently. I would absolutely recommend the service.

It is certainly easier to understand something that I have heard instead of something that I wanted to read, but never got around to reading.

Because of the service, I am consuming more of the underlying content and saving desk time that I can redeploy towards more billable activities for the firm.

I have been a [monthly subscriber] for many years- I have listened to more articles during the 2 months I have been an audio subscriber than all the articles I read of the print subscription over the last several years combined.

I strongly encourage the associates at my firm to read [their journal] cover-to-cover every month... [Y]ou never know when you can draw on some detail from an article to provide an analogy to a client. This service gives them an efficient way to get all this information each month, while still juggling the demands of a busy practice and their own personal lives.

The interface is very intuitive and easy to use, and my consumption of articles has gone from 10% with the print to 70% with the audio.

With the print, I would read a couple articles and skim the first paragraph of a couple more. Now I listen to all of them and derive a lot more valuable information.

My first issue [of the audio] is by far the most content I have had time to review since becoming a [subscriber].

[The service] makes me more confident when dealing with clients and prospects because I am more aware of what's going on. The service sharpens my skills and makes me a more effective advocate.

[Because of my subscription] I am doing what I am supposed to do which is staying informed. This has led to better discussions with my clients and given me new ideas for the projects I am already working on.

Great product. I would definitely recommend it to others.

Great service. I wish it was available for other publications as well.
